GRANT'S MAJORITY PROBABLY ABOUT 3,000. [GENERAL PRESS DISPATCH.]

RICHMOND, Nov. 8.-Sixty-eight counties and rities have been heard from, most of them officially. The Democrats lose in these 17,050, while their gain is only 1,620, showing a Republican net gain of 15,430. This leaves only about 3,500 of the Conservative majority of leaves only about 3,500 of the Conservative majority of 1869 to be overcome in the remaining thirty-four counties. If the Republicans gain in the same ratio in these counties Grant's majority will be about 3,600. The present estimates elect for Republican Congressmen: Smith, Platt, Stowell, and Thomas, and possibly Lever, in the 1st District, who is opposed by Braxton. The Conservatives elect Hunter, Harris, White, and Bowen.

A GRANT REPUBLICAN MEETING AT HARTFORD.

SPEECHES BY GOV. JEWELL AND GEN. HAWLEY -WHAT THE PARTY MUST DO.

HARTFORD Nov. 8 .- At the grand Republican demonstration here to-night speeches were made by Gov. Jewell and Gen. Hawley, both of whom were serenaded. Gov. Jewell said: "We first elected Gen. Grant because of his military deeds, not knowing whether he was a Republican or not, but he has proved himself as capable of leading the Republican party on Republican ideas as he was the loyal army on questions o

He (the speaker) urged that it was now the duty, and he believed it would be the pleasure, of the party in power to make a good use of the recent overwhelming indorsement it had received, making wisdom, prudence, and justice its guiding principles during the next four

Gen. Hawley spoke for some time.

After alluding to some of the issues settled by the canvass, he closed as follows: "Now, if the Republican party would taitbfully serve a confiding nation and retain its power, it must conduct its relations with foreign nations upon the highest principles, collect the revenue carefully, disburse it honestly, keep expenditures down to the lowest honorable limit, perfect the banking system, return to specie payments, furnish a uniform and stable currency, protect the American citizen, however humble, at home as well as abroad, observe well the the limit between State and National authority, deal wisely, firmly, kindly, and justly with the Indians, honor the purity of the ballot-box, scourge bad men out of office and out of the councils of the party, encourage the honest efforts of labor, to establish better relations with capital, perfect a reform of the Civil Service as well by a higher tone of sentiment as by a technical system. In short, be alive to the fact that this is the Nineteenth Century, and that the party which would govern the leading nation must hoarly watch for the constantly coming opportunities to serve the good cause of the world's better future. Gen. Hawley spoke for some time.

CONSPIRACY AMONG WORKMEN—A NEW CAPTAIN-GENERAL FOR CATALONIA.

Madnin, Friday, Nov. 8, 1872. The Epoca publishes a letter from Cadiz reporting the discovery of a conspiracy to incite an insur-rection among the workmen of La Carraça, the royal dock yard and arsenal, situated about six miles from Cadiz. The movement was of a serious character, and was actively fostered by the Internationalists. Upon the discovery of the plot a large number of persons were arrested, and it is believed the would-be insurgents will make no further efforts to carry out their design.

FOREIGN NOTES.

The number of sailing vessels wrecked or lost during the months of July, August, and September 1872, it is said, amounted to 286, viz: 146 English, 3 French, 25 American, 21 Norwegian, 18 German, 10 Dutch, 8 Danish, 7 Italian, 5 Austrian, 4 Russian, 3 Swedish, 3 Portuguese, 2 Spanish, 2 Greek, and 1 Brazilian; in this number are included 18 sailing vessels reported missing. The number of steamers lost during the same period amounts to 42, belonging to the following flags, (nationalities): 29 English, 8 Americans, 2 Spanish, 1 Portuguese, 1 German, 1 Norwegian; this number includes 1 steamer reported missing.

The Mexico Two Republics in correcting the statement recently published here that the attitude of the Mexican Government is unfriendly to the United States says: "Mr. Lerdo is not only friendly to the United Government of the United States, but desires to cement the most cordial relations with the American Government and people. Mr. Lerdo is highly imbued with the and appreciates the genius of American matinizations. We believe that President Lerdo has no object or interest in disturbing the friendly relations with the United States; and nothing in his policy indicates such an intention."

HONORS TO THE LATE GEN. MEADE.

A TESTIMONIAL FROM CITIZENS OF PHILADEL-PHIA.

PHILADELPHIA, Nov. 8.-A large meeting of he most influential citizens of this city was held at the City Hall to-day to give expression to their great respect for the memory of the late Gen. Meade, and their deep sense of the public loss sustained by the City, State, and nation by his death. Mayor Stokeley presided, and upon he report of a Committee, composed of Gen. John F. Hartranft, A. E. Borie, C. McMich M. Phillips, D. M. Fox, A. Drexel, Wm. S. Stokeley, and W. V. McKean, the meeting adopted the following testimonial of respect and honor to the memory of Gen.

monial of respect and honor to the memory of Gen. Meade:

The citizens of Philadelphia, assembled in general meeting at the call of the Mayor of the City, who made to them formal public announcement of the decease of their townsman and illustrious citizen, Gen. George G. Meade, place upon record this testimonial of their profound sense of the loss which they, in common with the whole country, have sustained. We of his city, of his home, who were near to him and had full opportunity to know his great merit as a man and as a citizen, and we who, in the dark days of Jane and July, 1863, were near to great peril to the whole country, from which his memorable and decisive victory rescued the nation, we feel in the profoundest sense the heavy loss to the people of our country. We knew him to be a man who was the soul of scrupulous honor in all his relations. As a citizen whose counsel was always characterized by sound judgment and great ability, he gave to the service which he esteemed it a pleasure and duty to devote to the city the highest value. We knew him to be as kind and magnantinous as he was skilled and valuant as a soldier. Feeling that we have lost our meet distinguished citizen, and that the country has lost one of its greatest soldiers, whose grand victory, in the language of his illustrious fellow-soldier, Sherman, brought imperishable glory to the national fame and majestic results to the fortunes of the war, we place upon our public records this expression of our deep sorrow, our loss being irreparable, and the service he rendered to the country being greater than that country will ever now have an opportunity to repay. We further express to the family of Gen. Meade, suddenly bereft of one who was as amiable and faithful nevery private relation as he was eminent in every sphere of public duty, our assurance that in their affliction they have the profoundest sympathy of the people of Philadelphia.

LATER.—Further developments leave no doubt that Ellis was murdered, with robbery as the object, on Tuesday night last. He was formerly a peddler, employing several teams and made considerable money. For some years past he has been a real estate broker and lender of money on collaterals, and was known to carry large sums of money about his person. He was executive fine sums of money about his person. He was east seen alive about 7 o'clock on Tuesday evening, in Washington st., South End. Mr. Ellis had never been married. There appears to be a reasonable probability that his murderers will be discovered.

THE RESULT IN KINGS COUNTY.

The manner in which the canvassers appointed by the Brooklyn Board of Elections have kept back the announcement of the vote for local candidates attracts considerable attention. Returns have not yet been made by eight or ten canvassers of the votes cast in their districts, and it is alleged that the official returns in one or two instances had been intrusted by the canvassers to other persons and never been delivered at Police Headquarters. The matter has been brought to the attention of United States Commissioner Jones, the Chief Supervisor of Elections, who will cause, it is said, the arrest and prosecution of the canvassers who have

failed to make returns.

The attention of the Commissioner has also been directed to the allegations of friends of Mr. Colahau, Democratic candidate for Congress in the IVth District, to the effect that the inmates of the county institutions at Platbush were taken to the polls in that town on S. Crooke, the Republican candidate. It is claimed that these men were not legally entitled to a vote, not having registered. Mr. Crooke denies that the paupers voted for him as a body. The Police Board has not yet completed its canvass, and cannot do so until returns from 27 districts are received. The full vote for a number of the candidates is annexed:

Patrick Lysaght, of the Sixth Word, Assistant Alderman in 1869-71, a liquor dealer, is another Tammany nomince. He is a native of County Cork, Ireland, and has

been in America 19 years. Richard Flanagan, a native of this city, was elected to the Assembly in 1870 and again in 1971 from the XIIIth District. For six years he was clerk in the Jefferson Market Police Court under Justice Ledwith. He received the nomination from Tammany Hall.

Jenkins Van Schaick was a member of the old Board. He is one of the firm of Van Schalek & Co., Brokers of Broad-st., and run on the Apollo Hall ticket, but received many Republican votes as he was indorsed by the Committee of Seventy. Peter Gilsey ran for Alderman in 1871 on the Reform

ticket with Mr. Van Schaick, and was elected. This year he was one of the Apollo Hall nominees. He re-ceived the support of the Grant Republicans and the Committee of Seventy. Many Tammany Democrats also gave him their support. Mr. Gilsey has been suffering for some time from a stroke of paralysis, but his speedy recovery is hoped for. Joseph A. Monheimer of No. 4 Warren-st. is one of the

Apolto Hall nominees. Samuel B. Vance, also of the old Board, is a member of the firm of Mitchell, Vance & Co. In 1871 he ran on the Reform ticket. He was long and favorably connected

Reform ticket. He was long and favorably connected with the cause of popular education in this city, serving as a member of the Board of Education from 1860 to 1868. He was also president of the executive committee of the College of the City of New-York. His name was on the Grant Republican ticket.

Oswald Ottendorfer was on the same ticket. He was born in 1826 in Zwittau, Moravia, and studied law in Pragne and Vienna. While a student in the latter place he took part in the revolution of 1848. After its failure, to escape arrest he field to America in 1850. A few weeks after his arrival here he entered the Buate-Zeitung office as a clerk, and after the death of the proprietor, became business managor, subsequently editor-in-chief, and finally proprietor in 1859. He has been one of the Regents of the University ance 1870, and has been Presidential Elector several times.

ASSISIANT ALDERMEN.

ASSISTANT ALDERMEN.

William Wade, was renominated by the Grant Repub-ticans for the office of Assistant Alderman of the XIIIth District. He was indersed by the Committee of Seventy, and an enormous vote was poiled in his favor. He is a clothier in Eighth-ave., and apparently a popular man.

clothier in Eighth-ave., and apparently a popular man.
Mr. Wade had not, previous to his election last year,
been an office-holder. He is a firm Havemeyer man, and
tavors the Reform platform.

John J. Kehoe, selected in the XIVth District for Assistant Alderman, is at present a Deputy United States
Marshal, and was a firm supporter of Havemeyer. On
three occasions he has been an unsuccessful candidate
for prominent offices.

Edward Brucks, though apparently not over 30 years of
age, has held several high offices under the City Government, and has served a term in the Board of Assistant
Aldermon. He has been Messenger in the Controller's
office under Richard B. Connoily, and also a messenger
of the Board of Assistant Aldermen, and assistant librarian of the city library. Mr. Bracks received his nomination from Tammany Hall.

Stephen N. Simenson is a prosperous real estate agent
on Eighth-ave, and was the choice of the people of the

rian of the city library. Mr. Brucks received his nomination from Tammany Hall.

Stephen N. Simonson is a prosperous real estate agent on Eighth-ave, and was the choice of the people of the XVIII District for sheir representative in the Board of Aldernico. Mr. Simonson was a member of the Board last year, and with this exception has not hold any public office of trust except that of School Trustee. He is a Grant Republican, and received his nomination from the Committee of Seventy.

Philip Comisky of the XVIIIth District has had a chair in the Board of Assistant Aldernien for the past year, and has now been redected by the voters of that district. Mr. Comisky was in favor of Mr. O'Brien's election for Mayor. He received his nomination from Apollo Hall, and was elected by a small majority.

The choice of the IVth District, John C. Keating, is a young man who has been an active politician since his first vote was cast, in the interest of Tammany Hall.

In 1865, he was a candidate for member of Assembly for the VIIIth District, but was defeated by a small majority. In 1868, he became a clerk in the Surrogate's office, which position he still holds.

Henry Wisser, a German, carrying on the business of a coachmaker in Greene-st., is the successful candidate in the Vth District. He acknowledges no party ties. Mr. Havemeyer will receive his support for the reduction of taxation, reform in the city government, and a vigorous prosecution of public works with scrupnious honesty.

Michael Healy, returned by the Vtth District, is a Tammany Hall Democrat, and a builder by trade. In 1865 and later he was Inspector of Eufldings. He will support Mr. Havemeyer in the judicious expenditure of money for beautifying and improving the city, and in all measures to insure honesty and efficiency in the administration of city affairs.

The VIth District has for its representative T. L. Thornell, Secretary of the American Fire Insurance Company. He was for some time Secretary of the Ninth Ward Council of Political Reform. He is a Republican, and will support Mr. Havemeyer in all measures that will tend to elevate the character of the city by insuring honesty and efficiency in all public officers and judicious economy in financial matters.

G. F. Coddington of the IXth District is an Old-time Whig and Straight Republican. This will be his second

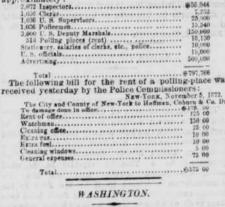

COST OF THE LOCAL ELECTION.

It is a difficult matter to obtain the exact est of the recent election in this city, but a number of the most important items have been obtained from official sources, and are given herewith. There are in this city 518 election districts. There were for each four inspectors and two poll clerks. The inspectors received \$5 each for each of the four days of registration, and \$7 for election day. The poll clerks received each \$7 for their services on election day. Hence it appears that 2,072 inspectors received \$65,944, and 1,036 clerks, \$7,262. These employes are paid by the city authorities.

In addition there were present two United States Suservisors, who receive each \$5 per day, or a total of \$25,900. There were also two policemen detailed to keep order, whose pay will average about \$3 per day, or a total of \$15,540. There were also appointed by Chief Supervisor Davenport a large number of United States Deputy Marshals. The exact number is not known, the United States officials declining to give the figures. It is believed, however, that there were about 3,000 appointed. The law under which their appointments are made specifies that the pay of these officers shall be \$5 per day, for a space not to exceed ten days. On the basis of 3,000 appointees, this would make a total of \$150,000. There was also a large outlay for stationery, clerk, here, etc. At previous elections the Police Commissioners have allowed for the rent of resistering and polling places, \$5 for each day of registration and \$15 on election day, or a total of \$18,130.

There are also the salaries of those employed in the Bureau of Elections, Stationery, etc. Probably the largest item is that of advertising the places of registration and election, the boundaries of election districts, the names of inspectors and poll-clerks, and the canvass of the votes. It will probably exceed \$50,000. The cost of the recent election in this city may be thus summed up ointed. The law under which their appointments are

ished, and some of the reports of the heads or departments also. They will all this year possess very departments also. They will all this year possess very little interest. Mr. Ela, the Fifth Auditor, reports that his office has settled over 14.000 accounts, involving over \$720,000,000. During the year 1,012 destitute American seamen were sent from foreign couptries to the United States, thus involving a cost to this country of gyer \$12,000. Many of these seamen were forced from the vessels they were engaged on by bad treatment, in order that the captains of merchant steamers might secure the wages they had earned and thus forfeited, and that they might ship a new crew to be treated in a similar manner on the other side of the water.

The salaries of Intermal Revenue Supervisors for this

The salaries of Internal Revenue Supervisors for this year were \$13.854. The cost of clerk hire, furniture, rent, and stationery raised this amount to \$169,587. The salaries and expenses of detectives were \$71,838; of surveyors of distilleries, \$23,484. The drawback on rum and alcohol and taxes erroneously assessed and collected, refunded, reached the sum of \$1,123,007. The amount paid or printing stamps and for the paper wa

CONGRATULATING THE PRESIDENT-GEN. MEADE'S SUCCESSOR-ENGINEER KING'S REPORT-MI-

NOR NEWS. [GENERAL PRESS DISPATCH.]

The members of the Diplomatic Corps at noon to-day called in a body upon the President, to tender their con gratulations upon his reflection. They were received in the Blue Room by the President and Mrs. Grant, Miss Nellie Grant, and members of the Cabinet and the ladies of their households. President Grant will leave here for Philadelphia, on Sunday evening, to attend the funeral of the late Gen. Meade on Monday.

It is rumored in army circles that Brigadier-Gen. O. O. Howard will be promoted to the grade of Major-General, vice Meade, deceased, and will be retired immediately, and faithful errice and wounds received therein. The retirement of Gen. Howard will still leave a vacancy in the list of Mator-Generals, which, as said yesterday, will probably be filled by the promotion of Gen. Terry or Gen. Camby, and thus reduce the number of Brigadler-Generals to six. with the full grade of Major-General, on account of long

The annual report of J. W. King, Engineer in-Chief of the Navy, has been submitted to the Secretary. It embraces several subjects of importance to the Navy and to Marine Engineering: First: The economy and results to Marine Engineering: First: The economy and results obtained from compound engines, as recently applied to ocean steamers at home and in European waters; with a statement of the plans of machinery designed for vessels to be built. Second: The results of trials of various kinds of serew propellers on vessels of our own and other nations with the reasons of failures. Third: The subject of the internal corrosion of boilers in ocean steamers using distilled instead of sea-water, with a statement of the experience in our own and the British Navy. Fourth: The kind and extent of the engineering works in the Navy-Yards, compared with these in foreign dockyards. Comments are made and improvements and expansion recommended.

The Cabinet meeting, to-day, was attended by all the nembers, excepting Secretaries Belknap and Delano. The Interior Department was represented by Gen.

Lewis Watkins of the Contract Office has been appointed Chief Clerk of the Post-Office Department, in place of Mr. Childs, deceased.

RAILROAD ACCIDENTS.

A PALACE CAR WRECKED-THREE PERSONS IN-JURED.

BALTIMORE, Nov. 8 .- At a little after 10 'clock last night a passenger train from the West, on the Baltimore and Ohio Railroad, ran into a Pullman palace coach which had been detached from a train from palace costs which had been detached from a train for Washington Junction, or Relay House, to be taken up by a regular train for the West. The Pellman coach was wrecked, three of the six passengers in it being injured. Charles Marsh of Woodsteek, Va. was baddy cut and bruised about the face, and his servant, a white man, was injured internally and probably fatality. Henry Jacobs of No. 20 Seconds. New York, was injured about the head and face, but not seriously. THE SEABROOK DISASTER-VERDICT OF A CORQ-

NER'S JURY. Boston, Nov. 8 .- The coroner's jury at New survport, in the matter of the death of George M. Hayward, killed in the Scabrook railroad disaster, find that the switch causing the collision was misplaced by some nuknown person, and acquit the Eastern Railroad Com-pany and its employes of all blame.

A PACTORY BURNED AT BOSTON-LOSS FOF LIFE. Boston, Nov. 8 .- The oakum factory of Gornam, Train & Co., on Norfolk-ave., was burned this orning. A workman named Callaban perished in the fames, and his son was severely injured by jumping from an upper window. The value of the property burned is small. Sheriff & Co.'s brush factory at Dedham was badly damaged by fire this morning.

PROBABLE CHANGE IN THE LOCAL DE-PARTMENTS. W THE MUNICIPAL ELECTION IS REGARDED BY THE COMMISSIONS—ANXIOUS EYES TURNED TOWARD THE LEGISLATURE—A HEORGAN—

IZATION OF THE PUBLIC OFFICES APPRE HENDED. Reporters of THE TRIBUNE called, yesterday, upon several members of the Police, Health, Prec, and Excise Commissions, to obtain their views relative

o the action of the next Legislature with reference is the personnel of the Commission Commissioners Bosworth, Manierre, and Barr were present. They expressed themselves as unable to form

any opinion in regard to the probable action of the Legislature. It was too early yet even to hazard a conj jecture. If the Republican majority in the Legislature hould decide to make a radical change, there were two ways open for them. One was creating a new Metropolitan District, thus giving the Governor the power of appointment, subject to confirmation by the Senate; or, by amending the enarter se as to vest the power of appointment and removal in the Mayor or the Common Council, or both. The section of ture in this particular is as follows: ART 10-Sec. 2. All country officers whose election of a po-ment is not provided for by this Constitution shall be elected by electors of the respective countries, or appointed by the Beard of pervisors or other country authorities, as the Legislature shall directly town, and village officers, whose election or appointment is provided for by this constitution, shall be elected by the ele-ctor of such claims, towns, and villages, or of some division thereof or pointed by such authorities thereof as the Legislature shall desire

wish to give an opinion relative to the matter for the reason that they had not as yet had time to give the sub ject sufficient consideration. Their appointment wa somewhat different from that of most of the other Cem missions, and was in accordance with an act of the

FIRE COMMISSIONER BLAIR'S VIEWS.

Fire Commissioner Blair was of the opinion that the Republicans would change all the Commissions There were too many office-seekers in the ranks of the winning party to leave a doubt that the Commission would be untouched. He thought that the old Metre politan bill would be revived, for the reason that Mayor Havemeyer was too independent a man to be in by the Republican leaders with such a wide range of appointments. He had been for so long a time a member the Committee of Seventy that he would naturally select some of his appointees from that body, or be tallo enced by them in his selections. There was another point for consideration. Tammany Hall had made such a splendid fight in the campaign just closed that it would hereafter be recognized as the leading Democratic or canization in this city. The great majority of the runk and file of the Apollo Hall Democracy would return to Tammany Hall, and two years later Mr. Lawrence would be the successful candidate. For this reason be was un clined to believe that the Republican members of the Legislature would hesitate before investing the Mayor with the power of appointment or removal. It wase tot

early, however, to speculate much on the probabilities THE DOCK COMMISSIONERS' WORK. The Dock Commissioners are John T. Ag new, Wilson G. Hunt, Richard M. Henry, J. Grenville Kane, and William Wood. They were appoint ed by Mayor Hall, in April, 1870, for terms of five years, respectively, at salaries of \$10,000 each per annum. They all express the opin on that the proper continuation of the important work of the Department is not dependent upon their remaining in office. They unite in the opinion, too, that if any change be made in the laws governing the De if any change of made in the law governing the Lee partment, all the powers now possessed by the Harbei Masters in the berthing of vessels will be transferred to the Department of Docks, in order that commerce may be relieved from exactions of which merchants have so long complained.

the Department of Docks, in order that commerce teny be relieved from exactions of which merchants have stong complained.

President Agnew, among other things, said:
That the city may retain and accommodate her increasing commerce it is of vital importance that the system adopted by the Department for the improvement of the water-front should be economically and vigorously ear ried out. In addition to the completion of the plans of the contemplated improvements, so temporary pleas have been built; over so dilapsidated piers rebuild; the new granite builkhead, boat-innding, and pier, at the Battery pushed forward; and sufficient machisery and material acquired to enable the Department to prosecute its work rapidly. The contemplated widening of West and South-sts, and the proposed general improvements will give urgently domanded facilities for transit, add largely to the vame of property on the water-front, and yield to the city an income sufficient to redeem the dock bonds which have been issued. Ido not think that the work of the Department of Docks can be properly conducted by a smaller number of Commissioners than are employed at present, so long as the powers vested in the Commissioners remain so extensive. We exercise personal supervision over 25 miles of water-front in various stages of repair and improvement. The business of that Department is increasing, and we find our time fully occupied in carrying out its manifold details. But, whatever changes it may be deemed advisable to make, it is of great importance to the future commercial welfare of our city that the docks and water front should be under the control of a distinct Department of the City Government.

Commissioner Hunt said in substance: I think the in-Commissioner Hunt said in substance: I think the interests of commerce are sufficient to warrant a confinuation of this Department as a separate department of the municipal government, and, whatever changes may be made in the personnel of the Board, I see no good reasons why the work of the Department should not go on successfully.

Commissioner Henry said: I believe that the special work intrusted to this Department is of such absolute necessity, that no matter what changes may be made in the personnel of the Department, it will be carried on as a separate department of the City Government.

Commissioner Kane said among other things: I believe that it is the deatiny of this city to be, at no distent
day, the commercial center of the world, and that any
interference with the plans already adopted for the improvement of the water-front would seriously retard the
finfillment of that destiny. It is my wish, as a citizen
and tax-payer, to see the work which has been mapped
out by this Department carried to successful completion,
no matter what changes may be made in the personnel of
the Board. In my opinion, the Department of Docks
ought, assuredly, to remain a separate department of the
local government.

Commissioner Wood said in the course of conversation; I
consider, not only that the Department should be continued as a distinct department of the city government,
but that the Dock Commissioners should have more
complete control over the raising of the \$5,000,000 pc;
year, as authorized by the Legislature, instead of being
required to act under,the supervision of the Commissioners of
the Sinking Fund. I think that, if the people
have sufficient confidence in the Dock Commissioners to
allow them to disburse the money when raised, they
ough to be given authority to direct the Controller to
leave all necessary bonds within the limited amanut. In
